*We reached deep in to our show pen for this heifer. Both the dam and grand dam of this female have ben a very strong part of the cow herd at Samtia Angus ad come from a very strong Ebon Hill cow family. The sire of this calf was the high selling bull at the Border Butte Bull sale in 2009. We cannot say enough about this Net Worth son as he has sired many re-placemnt heifers and many strong yearling bulls that have sold well for us on an annual basis. This bull is no longer part of the Samita program so this will be on of the last changes to get in on some of his genetics. This heifer is very quite, Extreamly long, Deep Sided with great con-formation as well as having a very femine look to her. She would be a great 4-H project or ad-dition to a replacemtn pen. Juniors do not miss this one!*
