BULL FEST 17
Simmental Bull Sale

Friday, March 3, 2017 at 1 p.m.
Camrose Regional Exhibition
UFA Barn, Camrose, Alberta
Welcome to the 12th Annual Bull Fest Sale. Well after an interesting and challenging year, here we are at bull sale season once again. We have a great selection of bulls whether you are in the market for a Full Fleck, Fullblood, Red or Black purebred, this sale is a one-stop shop. From performance to calving ease, all consigners strive to raise and deliver the best quality simmental genetics has to offer! Over the past several years our sale averages prove that any cattle producer can afford to purchase at this sale. We would like to thank all previous buyers and welcome the new ones. Feel free to contact any of the consigners about their animals or stop by prior to the sale. Thank you once again and we’ll see you sale day!

~ Bull Fest Group ~

**EPD EXPLANATION**

EPDs are “Expected Progeny Difference”. They are a useful tool in selection. EPD incorporate the individual animal with its ancestry performance. EPDs do not compare across cattle breeds. They are individual based per breed. EPDs indicate a probable variance above or below breed average for that trait for a given bull’s progeny. The accuracy of EPDs for calendar year bull calves is generally about 20% (one out of five times) so use it cautiously. One of several selection tools.

Friday, March 3, 2017
Sale Time: 1:00 p.m.
Camrose Regional Exhibition, UFA Barn
Camrose, Alberta

OFFERING 67 BULLS
67 YEARLINGS

100% Guarantee:
All bulls are guaranteed to be satisfactory breeders in accordance with CSA guidelines. Should a problem occur barring physical injury or mismanagement, a bull of equal value will be provided or a credit will be issued towards the purchase of another bull. If you have any problems with your purchase, please contact the breeder immediately.

Bull Development & Delivery:
The Bull Fest group will take yearling bulls back to the farm and keep bulls free of charge until April 1st. All buyers must insure the bulls if being returned to the consignor’s farm.

Option A:
Bulls can be picked up at Camrose on sale day and a $100 discount will be deducted from the purchase price.

Option B:
Bulls can return to the farm and will be delivered up to 200km at no charge at a convenient time for both the seller and buyer. Points beyond 200km will be at cost.

Option C:
Bulls can return to the farm and be picked up at the buyer’s convenience.

Can't make it to the sale?
Internet Bidding Available.

The longest spined bull in the pen, who’s dam is also the mother of Blackgold’s Stuey.
An eye appealing dark red bull, with a powerful pedigree with the likes of Whistler and Harrach.

A dark red bull from one of my oldest cows, that keeps raising a top end calf every year.

My pick for the most correct and complete bull in this year's offering. Moderate birth weight, 900 plus weaning, 1400 plus end of December. Wide topped, square hipped, deep bodied, 40 plus testicles and backed by a super young Topnotch cow.

One of the most complete red bulls we have to offer. This low birth weight bull has the mass and solid structure to enhance any herd.
We used Bel Steward semen on most of our fullblood heifers and he calved extremely well.

We bred some of our Full Flecks to 351A hoping for some blaze faced reds. The cross really worked here with a stout well muscled bull.

Very similar to the other Bel Steward in the sale. Low birth, calving ease type of bull.
This bull has the most middle and thickness of all the Dirty Harry bulls in the sale.

A moderate framed, blazed faced bull that’s really well balanced.

Only one of two Adonis 30X sired bulls in the sale offering. Dark red, deep bodied and raised by a consistent Little Willow cow. We all know what the Adonis 30X grand sons and daughters have done.
This moderate framed, blaze faced bull is again so much like the other Wheatland 351A sired bulls.

One of the more powerful Wheatland 351A bulls. Really well muscled and wide topped.
SOUTHSEVEN ADONIS 65D
Full Fleckvieh 1180005 STU 65D Feb.07/16

BW: 106  ADJ WW: 762  ADJ YW: 1370

With a pedigree that includes Adonis 30X, Metro, and Topnotch you know that this dark red, eye appealing bull was no accident.

This bull's dam would be considered one of our top producing cows. Her first three calves have sold into purebred herds.
It’s like a broken record when you have to comment on these blaze faced Wheatland sired bulls because they’re all so consistent in type.

Only a March bull from a young cow that raised a heck of a calf her first year. She just calved, to move up to January calving.

Head Sire: Sibelle Dirty Harry 25Z
Triple K Simmentals is a family farm operated by Bernie and Georgina Klammer and family. We breed about 120 purebred cows; concentrating on traditional genetics with Fleckvieh influence. Red factor bloodlines play a small part in our breeding program. We utilize walking herd bulls only and hope you will be impressed by the results. Feel free to contact us about our program, or better yet, stop by for a visit.

This offering of red bulls from Teddy 1A are well haired and consistent. 14D is a meat bull that will work.
A solid brick of performance best describes this guy. He is thick; well haired and great potential to sire some good calves.

This blaze faced bull goes back to very recognized genet-ics. He is our youngest bull in the sale. Watch him work and enjoy the profit!

This young bull is one of our first progeny for sale from the 50B sire. He is a moderate overall bull that is built right for calving ease and still can perform. His cow family is a solid favorite.
FORE SEE CATTLE CO.

Rod Chizawsky & Sandi Berezan

Rod’s Cell: 780-632-5500

Directions to farm:  From Vegreville, north on 857 to 631 junction, east to RR142, north to Twnshp 532, west 1/16th of a mile.

Here is a calf that was the pasture standout—long, thick, smooth shouldered, with a moderate birthweight and great performance, one of our favourites.

HOMO TEST PENDING
Another performance bull from a Northcreek cow that always produces. He also has a little lightning stripe on his forehead. 77Z calves come out easy, then put the pounds on and that is what we look for. A full brother sold last year to Darcy Romaniuk. HOMO TEST PENDING

This is the youngest calf in our offering with a mid-March birthdate, but sure has come a long way. He is soggy with a great haircoat. Our first batch of calves from JSEE Brody.

28D has a great haircoat, super disposition and is packed with performance out of a second calver. HOMO TEST PENDING
FSCC DJANGO 14D
Polled Purebred     PG1190252     FSCC 14D     Jan.06/16

BW: 70          SEP24 WW: 888          JAN10 YW: 1245

This fellow has heifer bull written all over him. He arrived at 70 lbs and exploded from there. Sheriff is known for his calving ease and his Accelerator mother was purchased from the Maxwells at their Classic Female Sale, and did a fantastic job.

Polled Purebred     PG1188400     FSCC 63D     Mar.12/16

BW: 96          SEP24 WW: 782          JAN10 YW: 1105

Our second Brody calf on offer, which is out of a South Holden female that milks well.
Our only blaze bull in the sale that is packed with style and performance! If a little chrome is what you’re after, he is the one!
HOMO TEST PENDING

These MRL 77Z sons carry a lot of the same characteristics! Great hair, thick, large package and good performance, yet come out easy. Buy with confidence.
HOMO TEST PENDING

A younger calf that has turned out well. He would do great things on some red or black angus cows. Again great hair and thick and still has some growing to do.
HOMO TEST PENDING
Welcome to Bull Fest 2017. The past year has definitely had its fair share of challenges, including the October snow, but the cattle industry still seems to remain steady. Between the snow and attempting to finish harvest we put together our first show string this fall attending the Lloydminster Stockade Round-Up and Farmfair International. We were honoured for our heifer calf, Snider’s Cipher to be chosen as the Reserve Junior Champion heifer calf at the National Simmental show held at Farmfair. This year we have a well-balanced group of calves on offer that include our first calves from our Skors Bootlegger herd-sire. There is something that we believe can satisfy any need whether you are looking for performance, calving ease, or adding to your female maternal strengths. We would like to thank our previous bull and female buyers for the support and confidence in our program. If you have any questions do not hesitate to call or stop by for visit, and we look forward to seeing you at the sale!

RAFTER 4T BUCKEYE 10D
Polled 1190779 RAFT 10D Jan.16/16
BW: 98  ADJ WW: 789  ADJ YW: 1352

Another Bootlegger son off a first calf heifer. Buckeye is a dark colored calf that ranks in the top 15% for calving ease and 25% for milk. Calving ease and milk seems to be a common theme developing with our Bootlegger calves. Buckeye is a docile, well-balanced calf that exhibits growth and muscling while still maintaining structural correctness, which should make him a strong calving ease prospect.

Polled 1190779 RAFT 22D Jan.10/16
BW: 92  ADJ WW: 789  ADJ YW: 1327

Dagger, as well as his other half sibs are the first offering off our Skors Bootlegger herd-sire who has sure impressed with his first calf crop. We purchased him as one of the high sellers and leadoff red in their 2015 sale, he has not disappointed. Dagger is out of a first calf Fullblood heifer and what a job she has done with this calf. Thick, well muscled, and as dark as you can make em with plenty of performance being out of a first calver. This calf is definitely a pen favourite, and with a top 20% ranking in milk and top 15% in calving ease this is a calf you will want to have a look at on sale day.

Direct is another son off our Skors Bootlegger herd-sire. Again, out of a first calf heifer his Fullblood dam has done an excellent job. A calf with strong calving ease being only 85 pounds at birth, he definitely has the potential to be let loose in your heifer pen. Here is a calf that is deep sided being as smooth and sound as they come.

Duramax is another calf our of our Casino herd-sire. We had this calf on the show road with us this fall as he has an excellent disposition. I believe it is important to highlight that this is only a MID MARCH calf, born on March 14. It's quite impressive to see such a late calf to exhibit so much performance at this stage. Dark red, thick, long spined, and haired up just right. Duramax is more moderate framed, but is structurally correct in every way. He will definitely have the ability to add pounds to your calves and pass maternal strengths down to your females with quite a high milk ranking for a red. Maternal brother sold to Willow Creek Farming in 2013.

Blackjack is the first half-blood we have ever offered in this sale. Out of our herd sire that goes back to LFE Casino on the topside and a purebred Black Angus Dam on the bottom going back to SAV Bismark, definitely the best of both worlds here. Having the moderation of an Angus with the maternal strength of the Simmental will surely bring offspring that are easy to market. Blackjacks depth of body, thickness and eye appeal will make him one you will want to check out on sale day.

**BW: 101 ADJ WW: 743 ADJ YW: 1557**

Defiance is the second of two sons off our Astro herd-sire. This calf has exhibited growth since we started feeding our bull calves in October. This growth has contributed to the length of body and frame he now exhibits. With LRX Red Ace as well as LFE Red Casino in the pedigree he will pass his frame and genetics strengths onto his calves.

Equalizer is a genetic package that combines pedigree as well as performance and maternal traits. His deep, soggy structural make-up contributes to him being 4% in weaning weight as well as top 3% in maternal strength. Equalizer is a calf we believe can make an impact in any cattleman’s herd putting pounds on his offspring that will prove beneficial in the market place. Rip-Tides females are also at the very top of our pen each year so whether your looking for added poundage on your market steers or to develop strong females with maternal and genetic strength take a look here.

Greetings all!! Another year has passed, and what an interesting year it was, with the crazy fall we had. Let's hope things are looking better for 2017. Luckily, all cattle producers have always have an optimistic outlook towards the future, as we all have a great grip for holding on tight and carrying on through year after year. So here we are again, and we have saved the best of the best, the cream of our crop for you. It is always a difficult decision of what to put forth, as our goal is to have a sire that will improve your herd, or meet your highest standards, and as always stand true to longevity, and put forth strong progeny. We would also like this opportunity to thank all of our previous supporters and buyers! If you have any questions or want to come down for a visit don’t hesitate to call, we look forward to hearing from you.

A tank of a bull out of Red Addiction again, we just love our Addiction calves. 17D is a grandson to our good 292T Maxwell cow who raised our high seller last year going to Foresee and David Mohr. This bull will be easy to find sale day, a definite sale feature.

Red Dawn is cherry red with a very docile attitude. Homo polled test pending. This bull is built to last with a big foot and bone filling his track every step of the way. He’s a big bellied powerhouse with tons of growth. His dam is a Movin Forward daughter purchased from Skor Simmentals and is one of our favourites. This bull is hard to fault! Be sure to check him out!

**JSEE MR DIRK DIGGLER**

BW: 84  WW: 1071  YW: 1350

A stout Red Addiction on colored right, tonnes of hair, a great testicular development, and of course a great disposition. He weaned off at over 1000 lbs, his full brother is working for the good people of Tri K at Beaverlodge. Rumor has it he is calving like a dream on heifers and cows.

**JAYSHAW MR DIEGO**

BW: 90  WW: 1053  YW: 1335

A definite sale feature here. A fancy black blazed face bull, and a real chunk. If you’re looking to add some chrome and performance to your herd 23D is the bull. He has a great set of EPDs and a little twist in his blood lines. We feel he deserves serious consideration, and will make a great addition to your herd.
Here is an AI bull that comes out of the Lotto bull. Interesting enough he comes out of a black cow and Lotto is a black bull...heterozygous in color though. He is a tank of a bull, enormous depth, a great hair coat, and has great testicular development as well. We were both surprised of his coloring, but he seems to have all the rest of the package.

**HOMOZYGOUS**

We are very happy with all the AI calves we got out of the Bootlegger bull. His progeny was a hot commodity last year. He seems to improve the hair and definitely the color. 31D is a good solid bull.

High performance fullblood bull here, coming from a complete package, color, depth, and eye appeal. We think this fullblood bull would work great on a set of black cows if you are wanting to add some chrome to your calves.
Terms - The terms of the sale are cash or cheque payable at par at sale location unless satisfactory credit arrangements have been made previous to the sale. The right of property shall not pass until after settlement is made. Should any purchaser fail to settle for his purchase, the consignor, reserves full power to resell the animal to the best advantage, either publicly or privately, without further notice. Any loss arising from such resale together with keep and all other expenses shall be payable by the defaulter. All settlements must be made with the clerks of the sale before any cattle will be released.

Disputes - In case of disputes, bidding will be re-opened between the parties involved. If no further bid is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer’s decision in such matters will be final.

Purchaser’s Risk - Each animal becomes the risk of the purchaser as soon as sold. Animals will be cared for at the purchaser’s risk for a reasonable length of time.

Announcements - Announcements from the auction block will take precedence over the printed matter in the catalogue. Buyers are therefore cautioned to pay attention to any such announcements.

Registry of Cattle - The proper Registration or Recordation paper, as the case may be, will be transferred and furnished to the buyer for each animal after settlement has been made.

Settlement - No incidental expenses such as feed, care, A.I. signing fees, interest, veterinary charges, etc. will be charged by either party when making settlement. If the seller is successful in proving the animal in question to be a breeder, then said animal will be reclaimed by the purchaser. Should the seller fail to prove the animal a breeder, then the buyer is guaranteed a satisfactory replacement. In no event shall the seller be responsible for more than the purchase price. Should a dispute arise over the quality of a replacement animal, the consignor will appoint a mediator.

Accidents - Although every precaution will be taken to protect the safety and comforts of buyers, neither the consignors, the auctioneer, or association assumes any responsibility in this matter, and disclaims any liability, legal or otherwise, in the event of accidents or loss of property.

Rights and Obligations - The above terms and conditions of the sale shall constitute a separate transaction and the rights and obligations of the two.
