PRESIDENT'S MESSAGE

It's sale season once again and the Pembina Triangle Simmental Association group have stepped up with our consignment numbers greater than they have been in recent years.

In addition to the great females for sale, returning by popularity is our Pretty Lady 7th Annual Jackpot & Show.

And of course, plan to stay for the good ol' PTSA hospitality and roast beef supper.

See you in Cypress River on November 12th!

Norbert de Rocquigny

7TH ANNUAL PEMBINA'S PRETTY LADIES JACKPOT & SHOW

Once again, the PTSA members have brought you their best heifer calves for the Pretty Lady Jackpot. Only the top females were selected.

Judging commences at 1:00 pm, winner will be drawn at 2:00 pm

Rules of the Pretty Lady Jackpot & Show:

1. Purchase a \$50 ticket
2. With each \$50 ticket, the purchaser has a vote in the judging of the Pretty Lady show and is entered in all sponsor draws.
3. You will be asked to evaluate the 2011 class of Pretty Ladies and provide choices for 1st, 2nd, 3rd, 4th and 5th placings on the form provided. You will be given 30 minutes to complete this task upon which you will return the form to the PTSA vote tabulator.
4. At this time, all votes are accounted for and tabulated.
5. The results will then be announced. The 5 Pretty Lady entries that accumulated the most votes/points will be ranked in order from 1st to 5th. A heifer receiving a 1st place vote will be awarded 5 points, 2nd - 4 points, 3rd - 3 points, 4th - 2 points and 5th - 1 point.

6. The 2011 judges jackpot is \$1000. The person(s) who judges the top 5 heifers in the correct order will claim the \$1000 prize money. If no one has the 5 Pretty Ladies in the correct order, we then award the judge(s) with the top 4 heifers correct with \$500. If no one has the top 4 correct, we then award the judge(s) with the top 3 heifers correct with \$250. If we have a tie, the jackpot money will be split evenly amongst the winning judges.

7. The PTSA will then draw from all the entry forms and select the lucky winner of a Pembina Pretty Lady heifer. The winner will be asked to select and take home their choice of the 2011 Pembina Pretty Ladies. We will also draw the winners of the other door prizes (listed on page 2)

8. Please note that if you are unable to attend the sale in person, there is an entry form located on page 5. Please send, with payment, to Gordon Delichte, Box 26, St. Alphonse, MB R0K 1Z0 (204)836-2116. **If mailing your entry, you must fill out your Chosen Lot for it to be valid!** If you attend the day of the sale, you will be asked to select your Pretty Lady in person and the Chosen Lot won't be disclosed, **BUT IF YOU DON'T ATTEND - your Chosen Lot will be the selected Pretty Lady and that heifer will be announced.**

PEMBINA'S PRETTY LADIES

DOOR PRIZES & SPONSORS

Purchasing a Pretty Lady ticket not only gives you the opportunity to win a heifer, you also get equal chances at these great door prizes:

1st Prize - A heifer!! - Your pick of the 2011 Pretty Ladies

This heifer should not be leaving the farm. From our oldest registered cow, 40L, and sired by the hot herd bull 72U at Double Bar D, having this heifer is a privilege that I should be keeping. This heifer has loads of hair and style that I have come to expect of 72U. She is a female that will become a cow that will work as long as her mother. By pedigree and looks, this is my Pretty Lady entry.

CONRAY CATTLE CO.

We are happy to be part of the 31st P.T.A sale. Red Simmentals are our main program. We have a cowherd that has strong maternal traits and can give us bulls and heifers that we can sell for seed stock. Connor is stepping back a little and I am more involved in the cattle herd. We enjoy visitors so make sure you stop in for a visit and have a look at what we are trying to do.

HOMESTEAD-T SIMMENTALS

Wow! What a year it's been for people in the Ag business. Floods, continuous rain, droughts in various areas have really pushed the stress button on most farms this year. We hope everyone made it through with a little bit of hope and optimism left for next spring.

Our family would like to welcome you to this year's Pembina Triangle Sale. We have selected 3 bred heifers that should prove to make excellent replacements or additions for your herd. As usual, we work hard to improve the traits of our herd so you can bid with confidence on any animal in our sale string. See you November 12th, or stop by for a visit to see the gals at our farm.

March 26 to Sept. 1

This would be the first daughter available from Silverlake Taffy, whom we purchased at this sale in 2008. Miss King has the typical King traits: pigmentation, calving ease and milking ability as well as the thickness and performance from Laredo, Houston and Double Bar D Max. Bred to our walking herd sire, a polled Double BarD Make M Pled son, the calf is surely going to be a performer. This heifer is stacked and definitely a brood cow prospect.

Dolly caught our eye from the beginning. This traditional coloured heifer comes from one of our most easy keeping females. Rendezvous 79N still looks as young and as heavy as the day we bought her from the Rendezvous reduction sale in 2004. 79N has produced many replacements in our herd and Dolly was no exception to the rule, which made her hard to choose for the sale. She should be a top producer in anyone's herd.

Now here is a great breeding that did not happen by accident. The consistency of Gunner producing females is astounding. We used him on Rendezvous 95N, a cow that never ceases to amaze us. The outcome was Miss Gunner - thick, deep bodied and overall a well built heifer. No guesswork here.

Sire - TNT Gunner

GORDON JONES SIMMENTALS

We once again are consigning to the Pembina Triangle Sale. The 3 bred heifers we are consigning will go out and work in any herd. 2011 has been a year that had us all talking about too wet this spring and then hot and dry. But the bright spot is that cattle prices going into the fall seem strong - great to see the up side of the beef industry. We also consign to the Shades of the Prairies sale and Prairie Partners Bull & Female sale next spring at Killarney Auction Mart. Give us a call and we will be glad to answer any questions or stop by to view the herd. Hope to see you at Cypress.

This Mr Beef granddaughter has been a standout since day one. She has performance, muscle and style all in one package and backed by one of our strongest black cow families. The Beef bull did a great job for us and we have sold lots of heifers that are making customers wanting more. The Blackout bull is a hetero black grandson of Bodybuilder that we have used in the heifer pen for the last 3 years - the calves come easy and have great vigor, then they just get up and grow. His sons were popular at last years bull sale.

PERKIN LAND & CATTLE CO.

Welcome once again to the PTSA sale. They say as we get older each year goes by faster and we're finding this to be true. It's exciting times right now as the cattle industry is gearing up for several years of lower inventory and higher prices. At PLCC, we strive to acquire some of the best genetics the North American Simmental industry has to offer - to improve our herd and thus the seed stock we have to offer for sale. Our lives are still filled with kids, cows and crops but we always enjoy a good chat with anyone about cattle. So stop by and give us a call.

This is a heifer that pains me to sell. I have been reluctant in past years to sell any embryo calves. The only reason I decided to sell 119X is that there is a full sister at home and a 3/4 sister that just weaned her first calf. What is there to say about her sire - probably one of the best black bulls of all time in the breed with a perfectly balanced set of EPDs. This one is sure to lead the way for any herd.

Here is a unique little heifer. Her mother, a Triple C Invasion daughter, was a high seller at the Minnesota State sale a couple of years ago. She comes in a moderate, fancy black package. The Centerfire bred heifers look like they will fit in quite nicely. WFL Reggie 85X is a son of R Plus Redge that we bought with Workman's of Minto to add some new genetics to our herd.

OAKVIEW SIMMENTALS

Welcome to the 31st annual PTA sale.

This year we have consigned a pair of red bred heifers that will make themselves at home in any breeding program and make exceptional brood cows.

We'd like to congratulate Andria for the great success she had with the open heifer she bought from us through the sale last year and wish her all the best next year as she shows her as a 2 year old. Oakview Xcel 62X (aka Gloria) was the Reserve Champion heifer at both the Oakville 4-H achievement and Portage X. Enjoy the sale and good luck judging the Pembina Pretty Ladies!

Deep bodied, full of natural thickness and smooth made are what set this heifer on top. She is strong topped with awesome spring of rib. The EPD's on this heifer predict that she will be a pound producing cow. She is in the top 3% for yearling weight and is well above average for the remaining performance traits. This powerful Caesar heifer is bred early and preg checked safe to none other than Red Label. We have been using him successfully on our heifers for several years and are always thrilled with the deep red, thick and fancy calves.

The proof is in the pedigree! The Bodybuilder females are known for their excellent heavy milking udders and maternal calving ease. Her extreme length and femininity are wrapped up into a solid red, polled package. This bred heifer is a very correct female with great feet and legs, tons of capacity and style to boot. This heifer is carrying a service to something a little different, our new herd sire Crossroad Solution, the lead off red bull at Crossroad's sale. This solid red herd sire is out of the Lewis bull affectionately referred to as "Stubby". Solution is super thick, stout and easy doing. He's full of muscle with a great hair coat. We are anxiously awaiting the arrival of his calves and are pleased to share that excitement with the new owner!

SKYRIDGE FARMS

Welcome to the 31st annual Pembina Triangle Sale. This is our third sale and we are honoured to be part of such a great group of cattlemen. Our herd now consists of approximately 50 head, mostly fullblood and fleckvieh genetics. All cows and heifers are synchronized and then bred to leading AI and herd sires. My wife and I both work off the farm and a short calving season is needed. The calves have no creep feed, therefore weaning weights are the result of grass and milk. All cows, along with their calves, are weighed in the fall assisting us in verifying which cows are producing well. Our goal remains producing functional, easy fleshing cattle that perform well for both commercial and purebred breeders.

2011 has been our most exciting year yet as we were blessed with a beautiful baby girl on June 30th. Madilyn's birth weight was a "moderate" 8lbs 8oz, weaning weight to be determined...although she

has not made it out to the barn yet, she has already found some time for a tractor ride with daddy...we suspect she'll be doing chores and checking cattle in no time! Hope to see you all sale day and would be pleased to have you out at the farm anytime!

Gilles, Jeannine & Madilyn Vuignier

A polled, purebred heifer from our herd sire SRH Rock 7P. Her dam, a Rendezvous Muscle Man cow, was purchased from Woodsong Farms several years ago. Anny's full sister was sold to Handford Simmentals in our first PTSA sale back in 2009. Anny was weaned off her dam on Oct. 5/10 with an actual weaning wt. of 722 lbs (no creep feed). Her dam weighed 1680lbs at weaning time. AI'd to TNT Top Gun for an early January calf (no exposure).

Maria is a purebred SRH Rock 7P heifer born on Mar. 5/10. Her dam, a Whistler 4121 cow, was purchased as an open heifer from Kopp Farms. Maria was weaned off her dam Oct. 5/10 with an actual weaning weight of 702 lbs (no creep feed). Her dam weighed 1560lbs at weaning time. Bred to our new purebred herd sire Boynecrest Empire 26X for a late January calf. Empire is solid red, polled and was purchased from Boynecrest Stock Farms at the 2010 Shades of the Prairies sale in Brandon.

Scarlett is a polled, fullblood Marcus heifer out of a Jetstream cow that was purchased from Gordon Jones back in the 2007 PTSA sale. A half sister was sold in the 2010 sale to Maurice Desrochers. Scarlett was weaned off her dam on Oct. 5/10 with an actual weaning weight of 822 lbs (no creep feed). Her dam weighed 1650lbs at weaning time. Bred to Boynecrest Empire for a late January calf.

WILCOX SIMMENTALS

Welcome to the 31st annual Pembina Triangle. This will be our 28th year with the sale. We have a strong section of open heifers from top A.I. sires. These heifers will make great 4-H projects and strong replacement females. For more information please check our website at www.wilcoxsimmentals.com, stop in or give us a call.

Miss Flash is a Wheatland Red Ace and KS Bravado, this mating certainly works. Look at this heifer with a 76lbs birth weight and weaned at the top of her group. Miss Flash also has excellent EPD's. I purchased Miss Flash's dam at the Bonchuk's Female sale last December along with Twin Meadow Livestock Farms.

DEQUIER FARMS

My wife and I, along with our three children, would like to welcome you to this year's Pembina Triangle Sale. We run a small but moderate herd—our children are very active in 4-H. We at Dequier Farms thrive on quality and customer excellence. These ladies are a definite asset to anyone's herd. If you have any questions, please don't hesitate to call. Looking forward to meeting you—see you at the sale!

LOCHWOOD SIMMENTALS

Welcome to the Pembina Triangle Sale! We are glad to be back at the sale this year. It has been a very busy year for our family with the addition of our new daughter, Orla in May and a very busy big sister Keira there to help. On the farm, the year started as another wet Interlake spring that had us mucking in our crops and it has turned into the driest fall in a long time with us bouncing off ruts made in the last 3 wet years! I have selected three open heifers to showcase our operation. All the heifers are from older proven cows and all 3 of these heifers have sisters or brothers that are in-herd or out working for others. Please call, email or stop in if you have any questions. We look forward to seeing you on sale day.

When selecting heifers this year, I walked through the field and picked my three - then looked at who they were. This heifer is younger than the others but just as strong. I feel that I can let this one go considering I have two full sisters that are to calve this year. With her nice white blaze face and long body, she will be seen.

DELIGHT SIMMENTALS

Welcome to the 2011 Pembina triangle Sale. This year was a year of challenges. A wet spring, with lots of boot sucking deep mud and the discovery that feed quality of the hay was low. So this year, despite the plan to A.I. the heifers, the heifers were not showing their heat cycles. So I made the decision to give a young TNT Gunner son "Delight Gun Runner 361X" the work. I also used some early pregnancy checking to select the bred heifers for this year's sale. Stop by my stall at Brandon, as I plan to show two of these sale animals.
