BOUCHARD LIVESTOCK WELCOMES YOU

Welcome to the new sale barn at the Ashworth Farm, hosting the annual Ashworth and Guests Bull Sale. These are exciting times for both generations of the Ashworth family. The Ashworth Farm and Ranch portion of the sale is a tremendous offering sired by their walking herd bull battery as well as a selection of the top AI sires in the Simmental industry. The reds will again be highlighted by the walking herd bull LFE Towa who is really coming into his own. The Red Rock sons will attract a lot of interest given the tremendous demand his daughters have created at the Shades of the Prairies the last two years. The Red Bull sons will be a different bloodline on offer from the Ashworths. The black Simmental bulls will be highlighted by one of the largest offering of Odin sons in Canada, a sire that is destined to make a difference. The Black Impact sons are a very impressive group making their debut this year. The Oil Baron sons are bound to have some fans sale day. Ashworth's have used the First Dream bull in their AI program with success for a number of years.

The Tessiers have once again brought a set of front end bulls to compliment the offering. The largest red sire group will be the Dr Phil sons that are an outcross for many breeders. The Buckeye sons will make their debut in this area at the sale, a very proven pedigree. Tessiers will again offer a very strong group of Red Ace and Red Eyes. Probably their most intriguing group will be the Rampage sons - certainly a bull there has been some hype about.

Both programs have done a great job of combining walking herd sires with very elite lead off AI sires.

Bouchard Livestock has great interest in these two programs as we have been involved in assisting them in sourcing foundation females over the years. Give the Ashworths and Tessiers a call and discuss your herd bull requirements. Both Gary and myself will be familiar with this strong offering and will be in a position to assist you. If you are unable to be in attendance we will be pleased to represent your herd bull needs.

PRE-SALE MEAL

Please join us for a pre-sale lunch at noon.

HOMOZYGOUS TESTING

Many bulls have been Homo Polled & Homo Black tested. Results will be available prior to the sale.

SIGHT UNSEEN PURCHASE PROGRAM

If you are unable to attend the sale but are interested in bulls, give the consignors a call and they will personally go over the bulls and your program to recommend bulls that would meet your needs and refer you to one of the sale staff who will represent your needs in a professional and confidential manner.

FULLY GUARANTEED

All bulls are guaranteed to be satisfactory breeders in accordance with CSA guidelines. Should a problem occur barring physical injury or mismanagement, a bull of equal value will be provided or a credit will be issued towards the purchase of another bull. We guarantee you will have a bull to service your cows.

IN-HERD USE SEMEN RIGHTS

Ashworth Farm & Ranch and Tessier Simmentals reserve the right to collect semen on any bull in the sale for their in-herd use only. Please contact the consignors with any questions.

VOLUME DISCOUNT

5% discount on purchases of 2 or more bulls.

BULL DEVELOPMENT & DELIVERY

Ashworth Farm & Ranch and Tessier Simmentals will keep bulls free of charge until May 1. Buyers need to insure the bulls while being cared for by the consignors.

Delivery Option A: Bulls can be picked up at Ashworth's on sale day and a \$100 discount will be deducted from purchase price.

Delivery Option B: At the buyer's option and risk, the bulls can be returned to the consignor's farm and delivered anywhere in Western Canada at no charge to central locations. We will do our utmost to deliver them right to your yard.

Delivery Option C: Bulls can stay at the farm and be picked up any time at the buyer's convenience.

EPD EXPLANATION

EPD's are "Expected Progeny Differences". They are a useful tool in selection. EPD's incorporate the individual animal with its averaged ancestry performance. EPD's do not compare across cattle breeds, they are individual based per breed. EPD's indicate a probable variance above or below breed average for that trait for a given bull's progeny. Use them for guidance in the direction you want your herd to go.

Ashworth Farm & Ranch

*Sale Facility
Construction began
in July 2011*

Ashworth Farm & Ranch

Welcome to the 9th Annual Ashworth Farm & Ranch & Guest Bull Sale. I would firstly like to extend a big thank you to the many bidders and buyers of our past sales. Your continued support of our program is greatly appreciated. We have enjoyed getting to know our customers and always look forward to renewing old acquaintances and making new ones.

In 2012 we look forward to holding our sale on farm in our new sale facility. I would like to thank Rhonda @ Optimum Genetics for working with us to hold our last 5 sales at their facility south of Regina but as we move forward it seemed that the logical thing to do long term was to move our sale home. I realize that for some this makes it a longer distance to travel than in past years but hope that you will take the time to come to the farm and view the bulls and our entire program in its practical environment.

We have again assembled a very uniform and functional set of bulls with hair and stoutness ready to sire calves that will be in demand. There has been no better time than the present to invest in genetics that will have a positive effect on your cow herd and your bottom line for years to come.

As in other years all bulls 12 months of age or older at testing time will be semen tested. Bulls under 12 months will be scrotal measured and tested at a later date. Our bulls are 100% guaranteed and we will make sure that in the case of an accident or injury you will have a bull to breed your cows with. We take the bull business and your business very seriously and will go the distance to fix any problem that may arise.

We look forward to working with our guest consignors, the Tessiers, the competent sales management team at Bouchard Livestock, our auctioneer, Jerry Kanewischer, ringmen Dennis Ericson and Ryan Dorran and Bonnie Thompson of Alameda Agencies, who will once again be present at the sale to supply you with your insurance needs.

We look forward to seeing you at the Farm on March 5th.

Sincerely, Kelly

- The First Dream sons have been popular with our customers because of their ability to deliver excellent calving ease while still maintaining good performance.
- 8Y is hairy, stout made, low birth weight, from a first calf Bravado daughter
- Calving ease EPD in the top 10% of the breed

- Square made with lots of testicle and good disposition

Tessier Simmentals

On behalf of Tessier Simmentals, I would like to welcome everyone to the 9th annual Ashworth Farm & Ranch Bull Sale. I would like to start off by saying thank you to everyone who has supported our program both past and present, we very much appreciate your support.

Finally we have seen some upside to the cattle market, and we feel with low cattle numbers around the world the prices should be here for years to come. This has been a long time coming and will be nice to see the cattleman finally getting paid for their hard work and dedication.

We have a real diverse group of bulls to select from this year, something for everyone, performance, maternal, calving ease and some that will produce offspring that you could excel in the showring with. The sale will be held at the Ashworth's farm in their new sale facility this year. They have put a lot of time and effort into this bull sale and we would like to thank them for allowing us to be a part of this event. We look forward to working with the Ashworth family and all of our sales staff.

We take great pride in our cattle and stand behind them 100%, if you have any questions or would like to view our bulls feel free to call us any-time. Make sure to come early on sale day for lunch

and feel free to stick around after for some hospitality.

Hope to see you sale day.

We were looking for a new red bull to use with a different pedigree, came across Dr Phil and thought we would give him a try. They turned out to be quite a set of calves. 63Y will be our lead off red bull and he is one powerful prospect. This guy is long spined, has lots of depth, is sound and full of hair, with an outcross pedigree to most herds. The Shocker dam is also a real powerhouse with a perfect udder who produces the good ones every year.

We purchased 60Y's dam as an open through Agribition from Boundary Ranch and this is her first calf. We feel she did a tremendous job. He pushed the 900lbs mark for an actual weaning weight. If all first calf heifers did that, I don't think we could complain. This guy will provide calving ease and plenty of performance.

LOT 41 & 42 - A set of twins that will impress a lot of people on sale day. These guys are a moderate, stout made pair that have lots of dark red hair. Their dam has numerous daughters and granddaughters in our herd and has produced bulls that have been high sellers at our sale in previous years. They are very closely matched and it will be hard to select which one is better. If you are in need of two bulls it could be just as easy to sweep the ring when they come in.

A feature red bull out of a popular Buckeye. 101Y is a deep sided bull with a big top and lots of muscle who can get out and really move. He is very clean made and poses extra style. Very easy to look at. I would consider 101Y a bull you could throw in your heifer pen with confidence.

The last couple years our most popular sire group has been Ace. He is just like all the Ace progeny - long, thick and stylish. We sold a full brother as our lead off red bull last year and he was purchased by Waverly Farms. This guy is very similar to him, maybe just a little more powerful. Check him out. We think you will like what you see.

This could be the most powerful black bull we have ever sold. Huge top, huge quarter, deep and as long as they come. Overall, just a well balanced herd bull prospect. His dam is one of our top producers as you will see her number in the pedigree of two other black bulls in the sale. This bull is as good as we have ever raised and we would like to retain semen for in herd use.

You will have to look hard to find one as thick and just full of meat. This will be the first Rampage to sell. We used Rampage in our heifer pen and the calves just fall out and are scratching to get up instantly. 144Y is a late February calf who will still push down hard on the scale by sale day, with a low birthweight, he is super clean made.
